

Aragati Seba Sangtha

Improving public health through awareness raising to target people

Aragati Seba Songtha (ASS) target people are poorest of the poor and poor people. Most of them are illiterate. They have lack of knowledge and different information which are very necessary for life and livelihood. Specially have inadequate knowledge on primary health. As a result target people are suffering different diseases like dysentery, diarrhea, bally pain, skin diseases and so on. They are also suffering from malnutrition.

Other hand most of them don't information where they will have services.

To address aforesaid problems, ASS implementing following activities for their beneficiaries;

- ✓ Arrange group meeting at samity level
- ✓ Sharing with small groups (5-7 persons)
- ✓ Link beneficiaries to different government service providing institute/centers
- ✓ Refer beneficiaries to different non-government health service providers
- ✓ Assist to beneficiaries to go hospitals
- ✓ Counseling to sick/ill beneficiaries to get relief in different manner
- ✓ Observe different health affair days
- ✓ Arrange discussion meeting
- ✓ Advocacy with regarding institution/persons in favor of beneficiaries

The program is supported by own fund and Directorate of public health under ministry of Health & Family Planning, Govt. of Bangladesh.
